DODGE MAGNUM

STARTING AT

\$22,495*

* As shown, \$32,995 MSRP excludes tax.

The driver's cockpit is the best place to get face-to-face with Dodge Magnum's technology. Sporty design white gauge face clusters, available steering wheel audio controls, and available leather wrapped sport shift knob all proclaim the racier side of Dodge Magnum. Here you'll find capability for available leading edge communications gear including UConnect™ Hands-Free Communications System, SIRIUS Satellite Radio and an in-dash navigation system with GPS. The bold, new instrument panel features an available display you can configure yourself. Gauges for trip and vehicle data, fuel economy, outside temperature, and a compass are also prominently displayed. Dodge quality extends through every square inch of detail. Find the full story at dodge.com/magnum

Yes, it's Hemi powered! With hemispheric combustion chambers like past legendary Daytona Beach winners – only smarter. The Multi-Displacement System (MDS) actually deactivates four of the eight cylinders during light acceleration or cruising. MDS means up to 20 percent improvement in fuel economy* based on driving habits.

* 17 city/25 hwy. EPA est. MPG.

Cargo space reigns supreme in Magnum when you fold down the second-row seats. An ingenious tri-fold, removable floor design turns the Magnum interior into a high-capacity carryall.
